Minister Wu Tells the New England, Society About China's Friendship.

PHILADELPHIA, Dec. 23.—The twenty-first annual banquet of the New England Society of Pennsylvania was held tonight in Horticultural Hall, covers being laid for nearly 400 members and guests. The principal speaker was Associate Justice David Brewer of the Uhited States Supreme Court, who responded to the toast: "The United States: a World Power." Among other things he said: "The twentieth century brings us face to face with new conditions, and we are conscious that the United States of America has become a more important factor in the world's thought. Some fancy that the Spanish War, wrought the great change. This is hardly so. It may have cleared the air and brought us face to face with the consciousness of the change, but silent forces of commerce and religion have been at work for years bringing about that resmit.

"Henceforth diplomatic language must be something to reveal, and not something to conceal thought and pur-pose. The honesty we must show is not the honesty of Shylock

only by that which is enumerated in the bond, but that of the golden rule. an honesty which compels us to see the other party to the transaction."

Wu Ting Fang, the Chinese Minister. responded to the toast, "A Greeting from the Orient." He alluded briefly to the "open door" of the Chinese empire, saying that foreigners are treated the same as the natives; there was no high tariff in China, such as other countries had, because the other countries had arranged the tariff for China. The oldest nation in the East, he said, was grateful to America for all she had done for China. America, he continued, would not oppress, but would see that justice is done to all.

"This country will," said Minister

"This country will," said Minister Wu, "not only become a 'world power, but the world power in commerce and in peace."

PRINCETON (N. J.) Dec. 23.—[Exclusive Dispatch.] The Princeton University library will soon receive the collection of Syriac manuscripts that belongs to Prof. D. Wilson. It is said to be the largest private collection of its kind in this country. It is now almost impossible to secure ancient Syriac manuscripts, and this increases the value of the collection. The manuscripts were collected in 1886 by the late Dr. John H. Shedd of Urania, Persia. After copies of the originals had been made, the collection was given to Prof. Wilson for having borne the expense of collecting and copying. A copy of the Prophets, and one also of Pasims, in the order of the fitual that was arranged by St. Theodore, are two of the manuscripts. BUENOS AYRES, Dec. 23.—During
the course of a conference between
President Roca and Prof. S. W. Barrington, the President of Argentina explained to the British Minister the circumstances which have led to the present difficulty between Argentina and

Chile. President Rocca laid special stress upon the efforts made by Argentina to secure an amicable settlement of the trouble, as well as upon the craftiness which, he asserted, Chile had employed in 'order to avoid arriving at such a settlement. The British Minister will send a detailed report of these cicumstances to his home government.

The newspapers published here assure their readers that several powers stand ready to offer their good offices to mediate the difficulty, but that Argentina does not consider that the moment has yet arrived either for accepting or refusing such offers.

According to the Tribune, the Chilean Minister will leave here for Chile January 1 and the secretary of the Chilean legation, Sefor Esuraris, will remain in charge of Chile's interests.

The Chamber of Deputies this afternoon voted to accept the proposal to prohibit the exportation of horses and inules. Tomorrow the chamber will discuss an interpellation asking that Sefor Alcorta explain the present status of the Chilean matter.

THE PATHER HAS BEEN WARNED TO BEWARE OF ABDUCTORS.

Mrs. Bohn's Bill for a Divosce Wil not Come Up in Court Until After the Her Charges-Money Sent Her.

CHICAGO, Dec. 23.—[Exclusive Dispatch.] After racing across the continent with two children taken from their mother by order of Judge Shaw's court, J. J. Bohn has arrived here, and now has the little ones safely in the care of friends at Morgan Park, where they will be jealousy guarded against any attempt to spirit them away. The intimation has come to the father from several sources since securing possession of the children that it would be well for him to provide against any attempt that might be made at abduction, and he expressed the conviction this afternoon that the warning was well founded.

On his arrival here Saturday, Bohn took the boys to a hotel, where he kept them secluded from any one but his most intimate friends. This afternoon he moved them to the house of one of his friends, out at Morgan Park, where the Bohn home is situated, and they probably will be kept there until all questions pending in the courts are finally settled.

The bill for a divorce which Mrs. Bohn has filed here will come up in Judge Holdom's court, but the date of a hearing of the case has not yet been set, and it will go over until after the holidays. Mrs. Bohn asks for a divorce on the ground of cruelty, and demands the custody of the children. The allegations of her complaint are practically the same as those in the proceedings which she filed at San Diego for separate maintenance, with the exception that she now alleges that her home is here, instead of California, as alleged in her complaint there.

IST DIRECT WIRE TO THE TIMES!

WASHINGTON, Dec. 22.—[Exclusive Dispatch.] A distinct leader tonight in the race for Secretary of the Treasury is ex-Gov. Leslie M. Shaw of Iowa, who, it is agreed will be offered the place by the President in consequence of Gov. Crane of Massachusetts having declined the appointment.

Gov. Crane, it is alleged, was not entirely satisfactory to the money interests of the East, and his knowledge that he would not be satisfactory to them hadsomething to do with his declining the appointment. He has not been conspicuous as a student of international, or even of national finance, and beyond doing a good business, had no particular training, it is claimed that would make him acceptable to financiers.

Ex-Gov. Shaw, on the other hand, is considered as an authority upon finance in the larger sonse. He has not mixed up with corporations nor with great moneyed interests. He comes from the Middle West; understands the financial needs of the western country, and is in all respects, so Washington statesmen say, well fitted for this great post. Another candidate for the place is Myron T. Herrick of Ohlo, who, if he were to enter the Cabinet, would stand for the McKinley line of finance, and therefore probably would prove acceptable to the Senate and financial interests.

Another Cabinet change that seems

ceptable to the Senate and mancial interests.

Another Cabinet change that seems settled upon is that of Secretary of the Interior. Secretary Hitchcock, so good authorities say, will presently retire, and the appointment of former Senator Wolcott of Colorado to succeed him is said to have been decided upon.

"Maybe tomorrow. I shall look up the law, and if I find that the President has power to remove me, I shall resign forthwith."

The 'World reporter had shown to Maclay a dispatch from Washington saying that the civil-service law contains a provision that the President has authority to make any exception to the regulations that he desires. The more formal expression of the wish of the President that Maclay would be dismissed would amount to an executive rule taking precedence over civil-seryice regulations.

Up to the time of leaving the navy yard, where he had been at work all day at his desk as a "special laborer" at \$2.5 a day. Maclay was defiant. When he arrived at the yard in the morning his found an official envelope awaiting him. It contained an order demanding his resignation. Rear-Admiral Burker wrote that it was by the direction of the President. No reasons were given for what was practically a dismissal.

In his informal discussion of the
matter today, Secretary Long made
it perfectly plain that the President's
intention in regard to Maclay would
be carried out regardiess of the latter's declaration that he is protected
by civil service rules. It is expected
that if he does not resign, he will be
removed summarily.

DAYS OF GRACE.

INT THE NEW ASSOCIATED PRESS—A.M.1 WASHINGTON. Dec. 22.—Nothing has been heard at the Navy Department from Historian Maciay in response to the Separtment's request for his resignation. Under the rules, an employe is allowed three days grace in which to show cause why he should not be dismissed, and although this rule, having, been made by the executive authority, may be disregarded at its pleasure, it is believed that Maclay will be given a reasonable time to quit the navil service, for it is certain that he must go.

In line with the determination already reached to stop the further discussion of the Schley case, so far as the executive branch of the government is concerned, the Navy Department has decided that it will ignore the reported recent utterances of Admirals Brown and Belkmap somewhat on the lines of the Gen. Miles interview.

The announcement of his declination followed a conference between the President and Senator Lodge, after the latter had talked with Gov. Crane over the long-distance, telephone.

The only name suggested at the White House today after it was known that Gov. Crane would not accept, was that of Col. Myron T. Herrick of Cleveland, O. Col. He will probably be connected with one of the Chicago banks.

It is said he expected to retire from the Cablnet had President McKinley lived, and, having seen a great many of his spancial recommendations enacted into law, he feels that he has accomplished the greater part of the work he began, and now wants to retire among his friends in his home city.

passage of the next river and harbor appropriation bill, which is certain to be passed during the present session of Congress.

At the War Department today the statement was made that the office would remain at Los Angeles, and when necessary an officer would be assigned to take charge of it. There has been no river and harbor bill passed for fines years now, so there is very little work for the officers in charge to do, but as soon as it becomes necessary a man will be sent to Los Angeles. In this meantime the civil force will continue to conduct affairs. A man might be sent there right away, but for the fact that the War Department is crowded with work, and officers can be smiployed to better advantage elsewhere, for the present. There are now seven or eight engineer offices without military heads, and there is no intention of abolishing any of these offices.

The subject which interests the German press most, in connection with the new tariff of the office of Secretary of the Treasure. bill, Mr. Harris says, is the probable effect it will have on the renewal of commercial treaties in 1902. He says that the sentiment is almost unanimously in favor of first reaching an agreement with the United States, and using this as a basis for concluding treaties with other nations. Our food stuffs and manufactured goods, Harris says, have gained such a foothold in Germany that it will be a difficult matter to disolate them.

NEW YORK, Dec. 22.—[Exclusive Dispatch.] The American Sugar Refining Company reduced its list price for hard sugar 25 points today, which is sequenter .ef. a cent a pound, and 15 points on raw sugar. A decline of over 5 points took place immediately in the price of the stock of the American Sugar Refining Company on the Stock price of the stock of the American Sugar Refining Company on the Stock Exchange. It closed at 18% Saturday, and sold this afternoon, near the close, at 193%, the transactions in the stock being more than one-fourth of all the business done. There were immediately reports of a renewed outbreak of the war between the American Sugar Refining Company and the Arbuckles. The Arbuckles cut the price of refined sugars last week, but it was not until today that the trust met the cut and went the Arbuckles one better. The National Sugar Refining Company (which is generally supposed to be controlled by the American Sugar Refining Company,) met the Arbuckles' cut last week and sold hard granulated sugar at 4.75, while the American Sugar Refining Company held its price at 4.90.

James H. Post of the Sugar Trust admitted that a war was on. He said: "There is a war to get business; that its the only war that I know of. There is the only war that I know of. There is a very large surplus supply of both raw and refined sugars. The demand for refined sugars has been fully as large as in previous years, but the competition in the West of beet-sugar manufacturers and increased production in all parts of the world have brought about large surplus stocks, and the present competition among refiners is the result." granulated was 4.41. (BY DIRECT WIRE TO THE TIMES.)

SAN FRANCISCO, Dec. 23.—(Exclusive Dispatch.) "When I pass by, the ladies all cry:

"Are you there, M-o-r-i-a-r-i-ty?"

Everybody remembers Billy Emerson in the make-up of an Irish-negro poinceman singing that song and that he was the prince of minstrelay and the most popular burnt-cork artist in the business. But the bottle and cards have each played their share in wrecking the once great entertainer, physically and financially.

The Billy Emerson of today is little better than a tramp. He can no longer sing or dance, even to please the patrons of eastern saloons, and so his friends here, headed by Ferris Hartman and Harry Cushman, are arranging a big benefit for him. If Billy Emerson is to die, they want him to die here in California, where he was known and loved. If a quiet home and a doctor and the gold cure or anything else can set him firmly on his legs again, they want it done for old-time's sake.

CONGRESSMAN COOMBS TALKS.

IBY THE NEW ASSOCIATED PRESS—A.M.I
SACRAMENTO, Dec. 23.—Congressman Frank L. Coombs of Napa arrived
in this city this morning from Washington to spend the holidays at home.
In an interview Coombs said the California delegation had been working as a
unit in the endeavor to secure the reenactment of the Chinese exclusion
law, and expressed the opinion that a
great majority of the members of Congress were in favor of maintaining the
barrier against the Asiatic invasion.
Coombs said also that the Commerce
Committee of the House, of which he
was a member, would report a bill to
be presented January 9, 1902, favoring
the construction of the Nicarsgua
canal at a maximum depth of thirtyfive feet, the details of construction
and the securing of right of way to be
left solely to the President of the
United States.

This proposed bill is in conflict with
Senator Morgan's measure, which provides for a commission to pass upon
these points.

Beferring to the construction of a
Pacific cable, Coombs said he feared
the public sentiment was to vigorously
opposed to the government undertaking such an enterprise to permit of the
carrying out of a scheme of national
ownership.

ONE PASSENGER IS KILLED AND SEVERAL OTHERS HURT.

Car Starts Down Steep Incline Without Being Attached to Cable, and Gathering Terrific Momentum, Leaves the Track and Dashes Into North-boun

SAN FRANCISCO, Dec. 23.—[Exclusive Dispatch.] A runaway street car on the Fillmore-street line crashed down a steep, grade between Broadway and Green streets tonight, carrying eight passengers and two car operators on the wild ride. One of the passengers, Miss Mary Whalen, was fatally injured, and died in a couple of hours at the Southern Pacific Hospital. Another is in a precarious condition. The other passengers, seven in number, were more or less seriously cut and bruised.

The wild ride occurred at 7:58 o'clock in the evening. A north-bound car not being attached to the counter balance, and being carried by its weight and the sharpness of grade, gathered terrific speed, and crashed into a car waiting at the foot of the hill, wrecking one side of that car, and then plunged along the sidewalk, wrecking everything in its path.

Through some oversight the north-bound, or down-grade car, was not attached to this cable, when Conductor F. L. Phelps signaled to his motorneer. A. T. Deutschman, to start down hill. Immediately upon receiving the starting bell, Deutschman threw his lever over, and the car started over the brow of the hill. Gathering speed with every revolution of the wheels, the car simply flew down the steep grade, and the panistricken passengers scattered about the car hung on to their sekts, and waited with bated breath for the inevitable.

The front truck of the car left the rails just before the bottom of the hill

The front truck of the car left the rails just before the bottom of the hill was reached, and the runaway car was reached, and the runaway car crashed into the southbound one. The impact of the collision threw the run-away car completely off the track, and it rushed across the roadway to the sidewalk, tearing up a lamp-post and shattering one of the large wrought-iron poles used for the purpose of stringing wires across the street. When the car finally stopped on the edge of the sidewalk, about twenty feet from the sidewalk, about twenty feet from the intersection of Union street, the whole front of the car had been re-duced to splinters and twisted iron.

DUEL OVER A WOMAN.

LOGANSPORT (Ind.) Dec. 23.—Jim Beil and Solomon Johnson, colored, fought a duel with revolvers late last night in a saloon at the Kenneth quarries near here. Beil is dead and Johnson badly wounded. They fought over a white woman. Witnesses say Bell entered the room with drawn revolver, and fired at Johnson without effect. The barkeeper extinguished the light, and the men grappied and fired at each other at short range. They were separated, and Johnson coolly lighted the room. located his adversary and emptied his revolver in that direction.

INT THE NEW ASSOCIATED PRESS—AM.

NEW YORK. Dec. 23.—According to the Tribune's London correspondent, a dispatch has been received by the War Office from Lord Kitchener forwarding further instances of alleged murders of natives by the Boers.

Most of the cases rest solely upon native testimony, among them being a horrible story of the burning alive of a Kaffir named Frans. He was the driver of a wagon forming a part of a British convoy captured between Preteria and Rustenburg a year ago. Two Boers, it is alleged, wrapped him in buck mil, and piled bags of oats upon them. They then poured paraffine upon the heap and set fire to it. The total number of Kaffirs reported from Kimberley as having been murdered is thirty-seven, but detailed accounts have not yet been received. Kaffir evidence has on many occasions since the outbreak of the war been found untrustworthy, but there seems little reason to doubt that the Boers adopt the practice of shooting any natives that they may think conveyed or would be likely to convey information of their movements to the British troops.

Mile Race One of the Closest Fin

BY THE NEW ASSOCIATED PRESS-P.M.

(BY THE NEW ASSOCIATED PRESS-P.M.)

SAN FRANCISCO. Dec. 22.—Close finishes marked the racing at Oakland today, three of the events being won by narrow margins. Outsiders were successful on two occasions. The mile race resulted in one of the closest finishes of the season. Pat Morrissey led until the last jump, when First Shot got up and beat him by the shortest of noses. Many of the spectators thought Morrissey had won.

After his good showing Saturday, Headwater, was made favorite for the Racine handicap at seven furlongs. He broke with the field, but bolted and was left. Mercer won easily from Rio Shannon and Janice. Jim Hale upset calculations by leading all the way in the last race. Horton finished first, and beat Greyfield for the place. Jockey Troxler has arrived and will ride here. Results:

Six furlongs: Autumn Time, 110 (Ransch.) 8 to 5, won; Knockings, 110 (Hoar.) 15 to 1, second; Dwight Way, 115 (Bozeman.) 40 to 1, third; time 1:15. Rosarie, St. Cheater, Bassago, Schwarzwald, Jim Roberts, Whiskers and King Herald also ran.

CHRISTMAS FUN OF MERRY ELKS.

THE ELKS' CHRISTMAS TREE.

the banquet-room set with long tables in time to see a most amazing procession.

At the head was Harry Herrington, who looked like a Dutch burgomuster with sauerkraut whiskers, and along trooped Jimmie Warren, swelling with hauteur under a pair of shiny gold epatiettes that were never both on his shoulders at the same time, and big Bill in his cunning little gown, escorted by Dick Stoetzer, who came nearly to his knees, and a lot of other Dutchies.

The band was a wonder. Sarley Hamilton, with a trombons and a false nose, spieled as though he never heard in harmony that gave him the center of the stage most of the time.

Before the fun began they passed around the envelopes with the names of the orphans to which the Eliks are contributins. Each Elk drew the names of one child from a list furnished as for one child from a list furnished with charitable institutions, and will sand it a present.

After that they had a big keno rame. The man who steered it through was Andy Levis, the vaudeville actor was and the corpheum. He made a Dutch spaces it the opening of the game. Andy simply pulled their legs in the interests of the orphans.

One there was a tie, when six man all got keno at the same time.

"You brothers each put up 25 cents more apiece and one of you will get the prize." It didn't look good to the stilk umbrella, they had to put up the stilk umbrella, they had to put up the forthers, but as Andy held onto the silk umbrella, they had to put up the forthers, but as Andy held onto the silk umbrella, they had to put up the stilk lodgemen pretty nearly done: The Famous Featherfex Est Only \$3 and the silk umbrella, they had to put up the filt lodgemen pretty nearly done: The Famous Featherfex Est Only \$3 and the silk umbrella, they had to put up the stilk lookemen drinking all alone: He was an Elk. and took the whole crowd bome."

The Pames of the same had a stage the prize. Then he hauled out a \$5 gold place and told them to guess the date.

"The was come."

The Famous Featherfex Est Only \$3 and the same time.

The ELKS CHRISTMAS TREE.

DIG BILL DEMERY, in a skittish little mok, with a wasts line like the equator, was the belle of the Los Angeles Elks' Dutch Christmas celebration last night.

There were also other frauleins to pass the beer. There was Herb Cornish, "the girl with the auburn hair." and Stone with an overflowing bodice and two yellow pigtalls, but they were not Bill Demery.

When Bill pattered lightly by, with both hands full of steins, and wearing a pair of wooden shoes about the size of the circus floats of the "Old Womas and Who Lived in a Shoe," he had them done to a finish.

Once Dot Leetle German Band got thirsty, and played out a languishing appeal of "How Dry I Am." and Bill danced an airy little bit of a cake walk with a clump trample of a herd of frightened elephants.

The Elks get up the jolliest festivities that ever happened.

About half-past eight last night there was the din of a brass band apparently trying to kick football goals with the musical scales, and the Elks gathered in the lodgeroom knew that somethins was doing. They scrambled out into the banquet-room set with long table in time to see a most amazing procession.

At the head was Harry Herrington, who looked like a Dutch burgomuster with asuerkraut whiskers, and along trooped Jimmile Warren, swelling with hauteur under a pair of shiny gold epaulettes that were never both on his shoulders at the same time, and big Bill In his cunning little gown, escorted by Dick Stoetzer, who came nearly to his knees, and a lot of other Dutchies.

The band was a wonder. Hariey to his knees, and a lot of other Dutchies.

A Cure for Rheumatism

There would be a great many less sufferers from rheamatism if everybody knew about Halpruner's Rheumatism Cure. Men and women who have suffered for years and who have taken Halpruner's have been cured. It is a medicine of remarkable curative power; and it never fails to benefit those who take it. Its wonderful penetrating powers go to the seat of the trouble and remove pain and inflammation, giving remove pain and inflammation, giving strength and health to the injured and

affected parts.

Don't be afraid to use Halpruner's.

It is so harmless the smallest child can take it without the slightest injury.

Don't continue to suffer from rheu-

matism; go to your nearest druggist and ask him for a bottle of Halpruner's Rheumatism Cure. If he wants to sell you something else insist on Halpruner's. There is nothing so good and nothing will cure you so quickly—50c and \$1 a bottle. Demand the genuine.

HOUSES OF THE WORLD.

many, and the recent find has opened up such vast deposits of the red metal that the property is now regarded as one of the greatest copper storehouses in the world.

The Greene Consolidated has been expending thousands of dollars in opening up the property, which is situated in the State of Sonora, Mex., twenty-five miles from the American line, and the smelters at the mine are now treating something like 600 tons of one a day. But important improvements are to be made at once. It is learned that the company is now negotiating with Denver parties for installing at 500-ton concentrating plant, and already work has been begun on reduction works, which, when completed, will enable the company to treat 2500 tons of ore a day, or a greater capacity for handling ore than that possessed by any other mine in the United States.

The Indiana and Sonora property which is to be opened up by L. Lindary of this city, and associated is another mammoth copper storchouse in the Cananea country. Mr. Lindsay, who recently returned from his property, is a pioneer in the Cananea country, having staked his claims long before W. C. Greene and George Mitchell became identified with the copper interests there.

At present the Indiana and Sonora company controls more mining claims in the country than the Greene Consolidated, and it is rumoved that considerable capital has been interested for opening up the property. This work will be started ason.

Mr. Lindsay was instrumental in premoting the sale of the La Libertad mine, recently acquired by H. B. Ciliford, upon the payment of 4400,000.

DOUGLAS AS SMELTER CENTER.

Bouglas has been selected as the site for the new smeiter of the Calumet and Arisona company, and the work of constructing this plant will be begun at once. The owners of the Calumet and Arisona mine, situated at Bisbee, reside in Michigan, where they are identified with veluable copper interests. Recently they visited the Arisona mine, coming all the way from Michigan in a private car. They selected Douglas as the site of their new smelter, because of the abundance of water in that part of the country. After a careful examination of that end of Arisona, they predicted that, without doubt, Douglas would be the future smelting center of Arisona, or at least that section of the country.

AMERICAN RIVER DREDGING.

"Prospects are excellent for dredsing operations on the American River during the coming season," said H. E. Bosquit, a mining man of prominence, who was a visitor to the Southwest Miners' Association headquarters yesterday. "I was informed while in the country last week that at least two companies will build dredges at once and will prepare to carry on the work on a big scale. In the north forf of the American the tailings form a continuous mass of thirty feet in depth and 600 feet wide. At other points along the river there are excellent showings, and there is every reason to believe that they will be opened up in the near future."

BISBEE WESTS NEW PUMP.

The Bishee West Copper Company yesterday let a contract for a first-class pumping plant to be installed at its valuable mine in Arizons. The contract calls for a plant to cost its valuable mine in Arizons. The contract calls for a plant to cost \$500. and as soon as it has been installed, development work will be eponed up on a much larger scale than heretofore.

RED DOG A HOT ONE.

The Honolulu correspondent of the Boston Transcript, in a recent lette

"There are in all hardly more than ten thousand whites in the city of Honolulu, and a goodly part of that number is made up of transients, who cannot be called citizens. The prominent society people are among the descendants of the old missionaries, and they mingle freely with the other nationalities in a social way. The social peculiarities of the place are further augmented by the unlimited number of queer marriage mixtures. A man's color here is no index to his nationality. Hawaiian, Chinese, American, French, Japanese, Portuguese, Spanish, and African blood are so intermingled that an attempt to ac-

Advertisements intended for this issue should be received not later than the 25th inst.

A dispatch from New York brings to astounding information that Edgar Maclay, the author of an alleged listory" of the United States navy, in thick Admiral Schley was denomited a "coward" and a, "cattiff," has fused to comply with the demand of a President for his resignation. Schay, as the dispatch informs us, a "formally notified Rear-Admiral forms in the navy yard of this desion." Maclay has been employed as "special laborer," and bases his result to resign upon the claim that he protected by the civil-service law, of that he knows of no reason why abould resign.

Boston Transcript, in a recent letter to that journal, gives some interesting facts regarding the relations of the different races in Hawaii. According to this correspondent there is no such thing as the color line in Hawaiian social life. Distinctions of this kind are absolutely unknown. He declares that "black and white and reliow and brown are on a social equality." Such being the case, we may well believe that the Booker T. The ap-plication to a high naval officer, who had proved his skill and gallantry in more than one action with the enemy, of such terms as "coward" and "cai-tiff" was absolutely without warrant or excuse, and the offense was as-gravated by the fact that these vile terms were applied to Admiral Schley, not orally and in the heat of passion, but deliberately, with malice prepense, but deliberately, with malice prepense, in a printed page. The wonder is that this venomous creature has been so long permitted to disgrace the naval service by remaining upon its pay

immediately after the report of the naval court of inquiry, Maclay set up the claim that in that report he had the claim that in that report he had been "yindicated." It is needless to say that the claim was wholly unwar-ranted. If he was vindicated, why did the President demand his resignation? The gravamen of his offense was the charge of cowardice against Admiral Schley. Even the majority report of the court of inastry—which report. the court of inquiry—which report was certainly not partial to Schley—paid tribute, though grudgingly, to the personal bravery of the gallant officer whom Maclay had accused of cowardice. was this a vindication for Maclay

Christmas presents a programme sufficiently elaborate to please the entire population of Los Angeles. The churches, Sunday-schools, races, football and coursing will afford satisfaction for all tastes and inclinations. Several denominations will hold services during the day, and Sunday-schools during the evening.

The First English Lutheran Church, as usual, will celebrate Christmas with a special service at 10:39 a.m. The church will be handsomely decorated in smilax, holly and palms. The pastor, Rev. Herbert J. Weaver, will conduct the ritual service and preach upon the birth of Christ. The quartete choir, composed of Miss Messerley, soprano; Miss Constantine, alto; Mr. Sumner, bass; Mr. Runkle, tenor, and Miss Showalter, organist, will render the following special musical programme in addition to the ritual: Organ, Miss Showalter; anthem, "Out of Judah is a Scepter" (Ashford;) solo, "The Birthday of the King" (Neidlinger,) Mr. Sumner; anthem, "Te Sleeping Plains of Bethlehem" (Lorens;) the offertory will be a 'cello solo, "Serenata" (Jonas,) Rosco Schrader.

Rev. C. C. Flerce, pastor of Memorial Baptist Church, will preach a Christnate" (Jonas.) Rosco Schrader.
Rev. C. C. Pierce, pastor of Memorial
Baptist Church, will preach a Christmas sermon at 9 a.m.
On Christmas night the First Congregational Church will hold their
children's service and distribute gifts.
The First Methodist Church will also
hold their Sunday-school celebration
on Christmas night.

LEVENTH-HOUR RUSH ON ASSESSMENT WORK.

There is the usual eleventh-hour rush in many of the oil fields and prospect territories to complete the necessary assessment work required to be done before January I. In the Acton, Aramer, Santa Monica, Cahuenga and several other prospect fields much work has been done, and it is reported that very little land will be allowed to revert to the government because of a failure to comply with assessment requirements.

CHAMBER OF COMMERCE BUILDING

To the architects of Los Angeles a circular letter has been addressed by the Chamber of Commerce, inviting them to present plans for the new Chamber of Commerce building to be erected on Broadway, between First and Second streets.

It will have a frontage of 134 feet, with a depth of 173 feet. The cost is not to exceed \$100,000.

All plans submitted shall be the property of the Chamber of Commerce, the circular provides.

Premiums of \$100 each are offered for the best four plans submitted.

The selection is to be left to a committee composed of three mymbers of the Chamber of Commerce, one non-resident architect, and one contractor.

The final acceptance of the plans is to be left to the chamber.

The xwards are to be paid out of the commission of the architect whose plans are accepted.

If all the plans are rejected, the chamber will pay four premiums of \$100 to the best four submitted.

In the letter, the chamber specially requests the Los Angeles Chapter of Architects

WASHINGTON (D. C.) Dec. 23.-[Exclusive Dispatch.] A letter reached here from Los Angeles today giving a hint that Flo Pederson, who has been missing from Los Angeles several weeks, and who is supposed to have ted suicide, may have been murdered.

This letter, which came from one of Pederson's personal friends, re-lated that one night before his disappearance he was in company with several men, one of whom tells conflicting stories. It is also known that just prior to his disappearance, Pederson was peacessed of a considerable sum of money, which his friends saw him have in his possession. The letter also states that Pederson always, under all circumstances, kept things in his room in perfect shape; that after his disappearance some one was heard rummaging through his room and that afterwards his trunk was found opened and in disorder.

Pederson had an acquaintance here in the person of N. W. Brosius, who after having been notified last evening that the man's body was supposed to have been found in the woods near Los Angeles, has spent considerable time today trying to get a trace of some of his relatives or persons who know him when he lived in Washington. Mr. Brosius says that for new eral years he has known that Pederson was to receive within a compara-

Mr. Brown, who knows the man by sight, sums up the mystery as a case of murder, and scoffs at the idea of the body being any but Pederson's.

The not consider the suicide theory worth even a serious thought, said Mr. Brown. I remember first seeing worth even a serious thought, said Mr. Brown. I remember first seeing which was uppermost did not be perfect, and he visited with us regularly. My attention was called to him by the fact that he, supposedly an ordinary laboring man, was in fulf with me was more and work was uppermost dry and denuded of fiesh, but, with me the seemed to have money, and wore, very unostentatiously, a handsome gold watch. I have not given the case any special attention, but I am antisfied that he was murwers when she hody." One of the largest and most delightful dancing parties of the holiday season was given yesterday evening at Kramer's by Mr. and Mrs. W. S. Porter and Dr. and Mrs. Granville MacGowan. The reception hall, banquet room and dancing hall were artistically decorated with a combination of smilax, holly and red satin ribbons. The lights were subdued with red shades, producing a charming effect. Music was furnished by Arend's Orchestra. At midnight an elaborate supper was served. The followingnamed assisted in receiving: Mmes. John E. Plater, John G. Mossin, James C. Drake, Mary A. Longstreet, Randolph H. Miner, Walter S. Newhall and Hancock Banning. Charles Dye was arrested Sunday by Detectives Shields and Talamantes, and is held at the city Jail, pending the arrival of the Sheriff of Ventura. On the Sheriff of Ventura county, who wants the prisoner on a charge of stealing a bleycle a few days ago at Ventura. Dye's arrest for grand larceny is a result of the arrest on suspicion early Sunday morning of George Andrews, a poorly-dressed negro, who had a new \$60 wheel in his possession, and who claimed to have bought it for \$10 from Dye. When Andrews was questioned Sunday by the detectives he said that Dye could be found at the home of a colored man who lives at the western end of the Temple-street cable line. Dye was found at this address by the officers and said he had bought the bleycle for \$15 in Ventura, riding it to Los Angeles. The wheel was reported stolen from a Ventura cyclery, and Dye's fail. ure to prove title to the property resulted in his arrest. Andrews was re-leased from custody.

ERAL BUSINESS TOPICS. WORD "TRUST." The Presi-te in his message says: "The great ustrial combinations, which are pularly, although with technical in-

industrial combinations, which are popularly, although with technical inaccuracy, known as 'trusts.'"

The New England Grocer, commenting on this, says:

How came the word 'trust' to be applied to big business combinations? The leview of Reviews, answering this question, says the word 'trust' was not applied to capitalistic combinations and monopolies until the Standard Oli Trust was formed on January 2, 1852. By the agreement a majority of the certificates of stock were placed in the hands of trustees, who took full charge of all the oil refining corporations, parformships and individual properties, which went into the trust. The violent agitation which sprang up against trusts in 1853 and 1839 resulted in inventigating committees, State and Federal anti-trust laws, and in slight changes in the forms and names of these and other combinations. Since them our greatest combinations are monopoly corporations, called companies limited of trusts, and are managed by directors instead of trustees. These companies own the plants and are therefore much more solid and symmens than were the original trusts, which only a majority of stock certificates of certain concerns held. The present form is also more dimensity to reach by law. Since therefore much more solid and symmens than were the original trusts, which only a majority of stock certificates of certain concerns which result in a complete or partial monopoly in certain territory. It is, perhaps, for tunals any monopoly combination with power to fix prices: it may, however, be unfortunate that the word 'trust, which has so many other legal meaning, should have been selected for this person.

# Health For Men.

There is no disease or disorder peculiar to men that I cannot cure. I have permanently cured more men than any other specialist treating the same diseases. Some of the methods I employ are as far in advance of those in common use as the arc light is better than the tallow dip. That is why I am able to cure the entire list of men's maladies and why my cures are complete and lasting.

Contracted Disorders.

Every case of contracted disease I treat is thoroughly cured; my patients have no relapses. When I pronounce a case cured there is not a particle of infection or inflammation remaining that the disease will return in its original form. or work its way into the general system. No contracted disorder is no trivial as to warrant uncertain methods of treatment, and I especially solicit those cases that other doctors have been unable to cure.

IBT THE NEW ASSOCIATED PRESS—A.M.I
CHICAGO, Dec. 23.—The closing argument in the suit against Alexander Dowle for the appointment of a receivership for his Zion lace industries, was begun by Attorney S. W. Packard today in Judge Tuley's court. Packard denounced the action of Samuel Stevenson, Dowle's brother-in-law, in having brought the suit, and expressed the hope that his better spirit would move him to reconciliation with Zion. A strong plea was made to show that Dowle was not infallible. Attorney Packard ilkened Dowle to J. P. Morgan as a great organizer, but said he doubtless made mistakes.

"He does not claim to be more than human," he said, "for in the Bible St. James says Elijah was a man of like passions with ourselves."

Packard, in upholding Dowle's claims as Elijah, said that he would preferhim at his bedside if he were at the point of death rather than any skilled physician. Packard is not a member of the Zion congregation.

"Dr." Dowle and his wife were present in court with by far the largest number of followers that has yet filled the court. During Attorney Packard's argument for the defense. Attorney F. L. Reeves, for the plaintiff, likened Dowle to "A devil fish that twined its arms about its victim, and quieted him until it got a strangle hold."

He touched upon the death of Mrs. Stevenson, wife of the plaintiff and sister of Dowle, and said that when Stevenson in his grief sought out Dowle as brother and priest. Dowle gave him a cup of gall and called him murderer.

Arguments in the case was given into the hands of Judge Tuley.

rectors met this morning, and considered Hill's letter, as it affected the position of that company and its reference to the acts of the Union Pacific interests last spring, but decided it was inadvisable and unnecessary to change the discussion already prepared for its long-delayed annual report to June 30 last. This report was, read at the meeting, and its issue is now promised within the week.

Friends of Hill, however, did, not hesitate to express their annoyance that Hill had thought it well to formally place himself on record in the manner he has in this long argument. It was rather directly said that this discussion of consolidation was not looked for, or planned, when Hill went West, and that he had not sought the advice of his associates here. Some more prominent interests in the Northern Securities Company said that Hill had been unfortunate in his statements and admissions, and generally, it may be stated, Hill's friends here disapprove of his public discussion of railway consolidation in the manner he has adopted.

county to receiver \$1625 State and county taxes paid by it, under protest, on property in this city.

The property consists of blocks 21, 22 and 23, south of Mormon Channel, where the station, depot grounds, etc., are situated; twenty-five acres of tank in the extreme southwestern part of town, and certain parts of its track and roadbed.

The company contends that all the property mentioned comes under the head of right of way. The right of way property is assessed by the State. The County Assessor maintains that only the railroad line proper is assessed by the State, and that the grounds, etc., are subject to county taxation.

CHRISTMAS FESTIVITIES.

LONG BEACH, Dec. 22.—[From The Times' Resident Correspondent.] The city is largely given up to Christmas just now, and other business is obliged to take a back seat. There is an unusually large number of strangers here and preparations are being made to give them a celebration which will revive all their most pleasant memories of the day, with cold and snow and a possible bliszard left out. The churches are taking the lead in this work, as usual, and all of them are preparing to give did and young a good time. Most of these will be of the description usual to the occasion, with trees and candles and presents and candy, and Santa Claus in all his glory. These will be given Christmas eve.

The young people of the Congregational Church, to vary the general programme, gave the two cantatas, "Santa Claus" and "Mother Goose," this evening. It was an excellent performance in every particular, and a pleasing introduction to the festivities of the week. DEATH OF A VETERAN.

Theodore P. Stearns died at his home in this city Saturday evening, aged 71 years. He was a veteran of the Civil War, and had long suffered from the results of that service. The funeral will be held from the home at 2 pm. tomorrow. Rev. A. W. Adkinson officiating. The local membership of the G. A.R. will be present in a body.

NEW PLANING MILL.

One of the latest additions to the manufacturing interests of this place is a planing mill which Simmons & De Clercq are building on East Second street. It will be equipped with the latest and best machinery, and will be able to turn out anything in its line a town of this size is liable to need. There is an abundance of work for such an institution, and it is certain to do wall from the first.

SNOW DELAYS WORK.

The repairing of the Ocean Park wharf has been delayed by snow. This does not mean that the location of the pier has been lost in twenty feet of the "beautiful," or that sleighing parties with bell orchestration are of nightly means that a fall of snow away up in the forests of the Northwest has prevented the cutting of timber intended for piles. It is desired that the piles when driven should have the bark on them as solidly as possible, as the bark-restricts the destructive work of the teredo.

Christmas-tree exercises for the Catholic Sunday-school and for the pupils of the Academy of the Holy Names-were held this afternoon at the academy. Among the features of the pragramme were a mandolin and sultar duet by the Misses Cave; plano selections by Miss Winnie Connolly, a plane and mandolin piece by the Misses Ryan, and a selection by Miss Katter Whelan. The children had a merry experience in the distribution of the gifts, SANTA MONICA BREVITIES. WHITTIER, Dec. 23.—[From The Times' Resident Correspondent.] From the appearance of a trio ushered into the presence of Justice L. M. Baldwin this morning, one might well imagine that this pious township was getting reckless. Canstable John H. Taylor of Los Nietos was in charge of the outfit, and he was the only one of the bunch with a whole skin. Victor Linares, a well-edulated Mexican who has frequently acted as interpreter in the local justice court, carried his left hand wrapped in a bandana handkerchief. The hand ached because there was a hole in the middle of it made by a 23-caliber revolver bullet. Victor's brother, Lestoria, had an arm in a sling to ease the pain of a bad knife cut near the shoulder. Romolo Delsie, the prisoner, had a bandage around his head to cheek the flow of blood from a bullet wound which, in the case of a white man, would have made a job

MONROVIA.

TO IMPROVE WATER SYSTEM.

MONROVIA. Dec. 22.—[From the Times' Resident Correspondent.] Chairman Johnson of the Water Committee reported to the City Council Saturday syvening that it was necessary to expend considerable money before next summer, if it is hoped to give all consumers, good service. In his estimation the entire pressure system should be rebuilt, to give better service in the domestic system. In the irrigating system from the Chapman wells, a number of improvements are needed, among them another reservoir at this end, an additional main pipe to convey the water from the wells, and another air compressor should be installed at the wells, of net ness than 150 inches capacity. By this means the same amount of water could be pumped in twenty-four, with a saving of one engineer and much fuel. Mr. Johnson recommended an issue of bonds to raise the necessary money to make these improvements.

MONROVIA BREVITIES. When the nervous system is weakened, the body genzerally abows the symptom of tremulousness in some of its members. The hands shake, the lips twitch at the corners, or the eyelids quiver involuntarily. Such a condition calls for medicine which feeds the nerves. Dr. Pierce's Golden Medical Discovery, acting directly on the stomach and organs of disestion and nutrition, has a wonderful influence in restoring nervons force. It quiets the nerves not by drugging them into stupor but by feeding them into strength. The "Discovery" has restored the health of thousands of those who were utterly hopeless, giving hem back natural appetite, physical vigor, healthful aleep and mental strength. There is no alcohol in "Golden Medical Discovery" and it contains no opium, cocaine or other narcotic.

santa Monica, Dec. 23.—(From The Times' Correspondent.] The tradesmen of the town generally report that the holiday trade here is better than it has been before in several years. Different lines are differently affected, but the prevailing opinion seems to be that business is on the up-grade.

"The increase in traffic is undoubledly due to the increase in the number of people living here," said one of the leading merchants today. "Without any manufacturing industries about us the revenue of the town must depend on the money expended by the reading merchants today.
